

Reindeer carrot hunt

Four reindeer start walking from different places. They only walk forwards and if they come to a junction, they always follow the direction of the arrows on the path. If a reindeer comes to a dead end, they stop.

QUESTION

Which two reindeer will reach the carrot?

- A. Reindeers 1 and 4
- B. Reindeers 2 and 3
- C. Reindeers 3 and 4
- D. Reindeers 1 and 2
