

# Christmas baubles

Elfie has a plastic packaging tube  that is open at both ends and can hold a maximum of three Christmas baubles. If the tube is already filled with three baubles and Elfie adds a fourth bauble from one end, the bauble from the other end will be pushed out, and the remaining two baubles will shift, as shown below.

## QUESTION

Elfie's tube is filled like this:

How would the tube look like after adding 4 baubles in the following order?

A	B	C	D	E
