

Christmas party

Beaver Bob's friend has invited him and his son for a Christmas party in Beaver Town at 7:00 pm. He leaves his house (called Beaver Bob's house) at 10:00 am. Bob wants to buy a present for his friend at Beaver Market. He also needs to pick up his son Rob from Beaver School. It does not matter whether he buys the gift or picks up his son first. Bob's car currently has enough fuel left to drive for 4 hours so he also needs to visit the Gas Station to refuel his car. Once he refuels his car, he can drive for another 9 hours. The time in hours to travel between locations is shown on the map. Bob can arrive early for the Christmas party at Beaver Town but he cannot be late.

QUESTION

Which route should Bob follow after leaving his house?

- A. Beaverlake → Gas Station → Beaver Tower → Beaver Forest → Beaver School → Beaver Forest → Beaver Market → Beaver Town
- B. Beaver Mountains → Beaver Tower → Beaver Market → Beaver Forest → Beaver School → Beaver Town
- C. Beaverlake → Gas Station → Beaver Tower → Beaver Market → Beaver Forest → Beaver School → Beaver Town
- D. Beaver Mountains → Gas Station → Beaver Tower → Beaver Forest → Beaver School → Beaver Town
