

# Bunnies and chicks

Samantha is asked to write down sequences of bunnies and chicks in an Easter display.

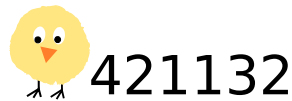

For this sequence, she writes down:

The system Samantha uses has four steps as follows:

- Samantha begins by drawing the first image in the sequence (a bunny or a chick).
- After the image, she writes down the number of times this image appears before the next image appears in the sequence.
- Then, she writes down the number of times the next image appears in the sequence.
- She continues writing down numbers in this way for the entire sequence.

For a different Easter display Samantha writes down:

## QUESTION

What is the sequence of bunnies and chicks corresponding to  421132 ?

- A.
- B.
- C.
- D.
