

Trick-or-treating

Four houses in the neighbourhood are ready for trick-or-treating.

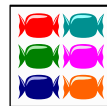

Children are able to do any of these 3 actions:

Go to the house on the left

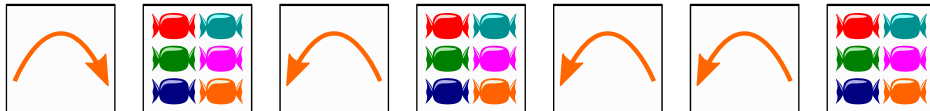

Go to the house on the right

Trick-or-treat the house.

Kian started outside one of the houses. We do not know which one. We know that Kian never went beyond the leftmost house or the rightmost house.

In addition we know that Kian's sequence of actions was:

QUESTION

Which house was not trick-or-treated by Kian?

A.

B.

C.

D.
