

# Halloween sweets

Gabija wants to share these 11 Halloween sweets with her friends:

- First, Benas takes one sweet of each type.
- Then, Marija takes two green sweets 
- Finally, Andrius takes half of the remaining sweets of each type.

## QUESTION

After sharing, how many sweets of each type remain for Gabija?

- A. two , one , zero 
- B. one , one , zero 
- C. two , two , zero 
- D. one , one , one
