

Party guests

To arrange a party at the start of the summer holidays for their Secret Seven club, sister and brother Janet and Peter need to contact their five friends:

Colin, Barbara, Jack, George, and Pam.

They can send a message to Pam right away. However, before contacting their other friends, there are a few points to consider:

- 1- Before they talk to George, they must first talk to Colin.
- 2- Before they talk to Barbara, they must first talk to Pam.
- 3- Before they talk to Jack, they must first talk to Barbara and George.
- 4- Before they talk to Colin, they must first talk to Barbara and Pam.

QUESTION

In what order should they talk to their friends to invite them all?

- A. Colin → George → Pam → Barbara → Jack
- B. Colin → Pam → Barbara → George → Jack
- C. Pam → Barbara → Colin → Jack → George
- D. Pam → Barbara → Colin → George → Jack
