

Heart game

The Heart game starts as shown below.

Each time a heart is turned clockwise, the heart diagonal to it also turns the same amount but in a counter-clockwise direction. For example, if the heart in the upper right turns 90° clockwise, then the heart in the lower left turns 90° counter-clockwise.

Aimi makes the following four turns in order:

1. Turn the heart in the upper left 45° clockwise.
2. Turn the heart in the lower left 90° clockwise.
3. Turn the heart in the lower right 90° clockwise.
4. Turn the heart in the upper left again 45° clockwise.

QUESTION

What does the tray look like after Aimi has finished?

A. B. C. D.
